DETAILED ACTION

1. Claims 1-16 are in the application.

Drawings

2. Applicant is noted that the figures 6a,b submitted with the application are the wrong figures. Additionally figure 6c is missing. The examiner has made use of the figures presented in the priority document.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 4 and 8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 4 and 8 there is no proper antecedent for "said watercraft".

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 3617

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Futaki.

Futaki discloses a conduit supporting structure 29 comprising a block of foam material arranged to fit the contours of an interior space within the watercraft. The block includes conduits 35 for supportively receiving cables.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hattori discloses a personal watercraft including a conduit supporting block of foam 38.
